

*Creating your prosperity & abundance blueprint!*

**HOW TO  
CREATE YOUR PERSONAL WEALTH CORNER**

*Think of it as your personal (or your family's) prosperity altar, plus energizer*

If you want to create a dedicated prosperity corner in your home, it is best done in the **South-East (SE)**, the place of wealth in the traditional 8 Aspirations school.

It can also be done in **North** or **North-West (NW)**.

Alternatively, it is also a very good idea to create your prosperity corner in your **Personal Wealth and Success Sector**, based on a compass direction. Your personal wealth direction is determined based on your KUA Number.

Your personal KUA Number is calculated, and a full report on your wealth, success, personal development, relationships, family and health directions, elements, colors, energizers, and more is included with **[Your Personal Feng Shui Empowerment & Success Report!](#)**

Once your prosperity corner is created, keep it very clean, constantly updated with fresh ingredients. In most cases (unless you have annual No. 5 or No. 2 flying stars flying into this sector) you want to keep your Prosperity Corner well-lit. You can also choose to meditate on your prosperity, imagining boundless, effortless and benevolent abundance flowing to you (it is important that this happens without harming anyone else, otherwise the law of cause and effect will generate adverse karma).

**Important!** Your prosperity corner is most effective effective in the following rooms: living room, family room, entry hall, your office or study. As the last resort, it can be created in the dining room.

DO NOT place your prosperity corner in the kitchen or bathroom! That will cause your wealth to be drained. If you live in a small place and have to use your bedroom, this can be done, but it's best to relocate it to one of the rooms mentioned above as soon as you can.

## HOW TO

Usually, you would create your prosperity corner using the well-known prosperity and wealth energizers, as well as the energizers appropriate for this specific compass direction, based on the 5 Elements and 8 Aspirations.

## How to create your prosperity corner by compass direction or sector

### South-East:

As it is a place of small wood, use flowers, lucky bamboo, orange or money tree to stimulate and energize wealth.

They have to be healthy, lush and green.

Also use the prosperity envelopes filled with I Ching coins and cash. Additionally, you can successfully place an auspicious bowl of fruit here! Gold ingots with amethyst and crystal balls in an auspicious bowl will work well (see my example of an auspicious ingot bowl below!)

**North:**

As it is the place of water and fish, use water fountain or auspicious images of fish here.

Water is energized by metal, so it is fabulous to energize your North prosperity corner with Chinese coins. 1, 6, 8 or 9 coin sets will work.

### **North-West:**

It is the place of big metal, deities and divine help. Therefore, use metal energizers here. Prosperity energizing deities, such as Laughing Buddha with coins or gold ingots, Kwan Kung, or Fuk, Luk and Sau.

Also use I Ching coin sets tied with red or gold ribbon, with or without red envelopes.

Gold ingots are great here. Real gold and/or silver coins are terrific to display as well.

Gold-framed mirror, and gold fruit plaques above the mirror – these are perfect for the Big Metal of the North-West. Golden citrine crystals energize metal.

Real gold and/or silver coins and bars can be displayed (or kept hidden) in NW

## Creating Wealth Corner according to your KUA number

My wealth and success direction, based on my KUA number, is South, with number 9. South is the place of fire and sun; it also corresponds with the color red and colorful birds. South also works fabulously with fruits and red, auspicious berries.

To energize wealth, I decided to use the images of birds, namely peacocks – one of the beloved Feng Shui symbols. I filled my red envelopes with I Ching coins and a set of 9 Emperors Coins and put all that in the gold lattice gift box.

### My Southern Wealth Corner

Russian prosperity bowl in auspicious red and gold color, with hand-painted lush strawberries on it, is filled with gold coins and 8 Chinese gold ingots with carved auspicious symbols. I've lined the bottom with several pieces of amethyst, and added the smooth clear quartz, red jasper and golden citrine crystal balls for smoothness and to energize my gold.

You'll also notice that I've added a round, like the sun, red sunflower plate, hand-painted platters depicting cornucopia and prosperous harvest, and pillows with prosperity tree, elephants and peacocks. There are also 9 oranges – 9 is the number of the South.

Also displayed in the South: three peacocks are protecting the gold lattice gift box filled with 8 prosperity envelopes with I Ching coins, plus a set of 9 coins tied with red string.
